

Courtney Heitman

FRACTIONAL COO & ACCESSIBILITY CONSULTANT

PROFESSIONAL SUMMARY

Strategic program leader with 10+ years in technology, combining systems thinking with a people-centered approach. I've led global cross-functional teams, scaled accessibility across 40+ platforms, and turned messy insights into systems that actually work.

I take on fractional engagements in program strategy, operations, and accessibility, building the operational backbone that lets good work scale. I do my best work where I can build something that genuinely serves people.

WORK EXPERIENCE

Sorority Recruitment Consulting | 2026 - Present

Founder & Principle Consultant

- Founded and operate a digital education company that helps students and families navigate sorority recruitment, a high-stakes, time-compressed process, owning company strategy, operations, and growth.
- Develop and launch a five-product line of premium digital guides, owning the full lifecycle from content and pricing strategy through packaging, positioning, and marketing.
- Build and run a direct-to-consumer brand and storefront, managing e-commerce operations, payments, and customer experience as a single, cohesive system.
- Design and lead a multi-platform content and acquisition strategy across short-form video and social, pairing marketing automation and SEO to drive sustainable, repeatable growth.

AuditMiner | 2025 - 2026

Strategic Program Manager

- Transition the company from EOS to OKRs, bringing clarity and momentum to leadership priorities by facilitating goal-setting sessions and ongoing reviews, achieving 65%+ OKR completion per quarter.
- Redesign company-wide meeting structure to reduce friction and decision fatigue, cutting leadership meeting time by 20% while improving information flow.
- Establish and lead a weekly Directors forum to align teams and elevate middle-up leadership.
- Own internal communications and lead all-hands meetings, increasing communication satisfaction scores by 1.2 points across a 20-person startup.
- Design and implement a scalable performance review framework based on industry best practices and employee feedback, improving transparency, consistency, and alignment around growth and development.
- Shape the company's AI philosophy and led secure, company-wide LLM adoption, ensuring 100% usage of approved tools and preventing external models from training on proprietary data.
- Lead SOC 2 compliance operations, including audit evidence management and weekly security governance meetings to monitor risks, controls, and remediation efforts.

Gallup | 2019 - 2025

Technical Project Manager - Accessibility Compliance

- Owned and drove accessibility compliance & risk remediation roadmaps, leading large-scale initiatives across 40+ platforms to steadily reduce accessibility risk by 3-7% year over year.
- Partnered closely with engineering, product, and UX teams to bring focus and momentum to accessibility work, improving audit scores by 3-15 points year over year.
- Led the internal accessibility audit schedule while improving accessibility compliance rates by 5%+ year over year by creating documentation on accessibility best practices.
- Drove adoption of accessible procurement processes by integrating accessibility into security compliance vendor evaluation, reducing development compliance efforts by 40+ hours per vendor.

Gallup | 2016 - 2019

Scrum Master

- Led the selection of a new e-commerce system with a multi-year roadmap to unify 25+ websites to drive to \$21M+ in annual revenue.
- Served as Customer Experience Lead for e-commerce, using data-driven insights to guide decisions and increase conversion rates by 15%.
- Used Scrum and Jira to plan and manage the day-to-day development activities for 3 engineering teams.

Gallup | 2014 - 2016

UX Developer & User Researcher

- Designed and developed user-friendly interfaces to improve usability across 3 e-commerce platforms, averaging \$7M in annual revenue.
- Built a UX Research program from the ground up, establishing scalable methods for usability testing, user interviews, and cross-functional insight sharing.
- Conducted 30+ moderated usability tests and user interviews for web platforms.

Bellevue University | 2012 - 2014

Programmer Analyst

- Developed interactive HTML-based learning objects to enhance online course offerings, improving module engagement by 5-15%.
 - Authored comprehensive documentation to support project maintenance and knowledge transfer.
-

VOLUNTEER EXPERIENCE

Alpha Delta Pi | 2021 - Present

Recruitment Analytics SME

- Lead recruitment strategy for 8 chapters by training student leaders to conduct structured interviews, manage recruitment operations teams, and apply data-driven decision-making.
 - Advise chapter and international leadership on recruitment strategy by presenting insights that shape operations, event design, long-term planning, improving priority rates by 1-10% per chapter.
 - Streamline processes by creating standardized training and materials for recruitment operations teams, reducing work hours by 5-10%.
-
